

Eddie Kane Steel

"TREAT OTHERS AS YOU WOULD HAVE THEM TREAT YOU"

"Treat others as you would have them treat you"

#1 Source For Steel Products and Services

Eddie Kane Steel Products, Inc., a New Jersey corporation, opened its first value-added processing facility in the Mahoning Valley (Masury, Ohio) in 2005. By 2010, three facilities were operating in strategic locations across the United States with the addition of a warehouse and distribution facility in Ahoskie (Hertford County), North Carolina, and a distribution and processing facility in Commerce (Los Angeles county), California. In 2011, a warehouse & distribution facility in Northport (Tuscaloosa County), Alabama was established. In 2013, a state-of-the-art processing facility was opened in Trenton, NJ, to serve New York City's five boroughs, as well as Philadelphia, NJ, and New England.

As a steel service center and distributor of hot-rolled prime and non-prime steel plate, Eddie Kane Steel sells on- and off-gauge, pattern and non-pattern plate sizes, ranging in thickness from 3/16 to 8 inches. Eddie Kane Steel maintains a diverse inventory of steel plate and, for its strategic customer partners, stock inventory of custom-made parts. Value-added products include OEM parts, counterweights, and steel burn outs for diverse industries, including the waste industry, general building construction, transportation, agricultural and industrial equipment, drilling, theatrical stage, and elevator industries.

Eddie Kane Steel's flagship processing facility in Ohio (180,000 square-foot warehouse and production plant) has a crane capacity up to 100 tons and has full rail access. North Carolina, California and Alabama facilities are also fully served by rail.

Eddie Kane Steel's processing capabilities include high-definition plasma and oxy-fuel flame cutting, shearing, bending, drilling, punching, welding, beveling, Blanchard grinding, stress relieving, and light machining. Our high-def plasma tables in every facility are 10' x 40' and cut up to 1-1/2' thick plates. Through close partnerships with vendors offering quality workmanship, we provide additional services such as coating and painting, foaming, leveling, slitting, and sawing.

Eddie Kane Steel's diversified product range, processing capabilities, and regional facility locations benefit our customers time-wise and cost-wise. Eddie Kane Steel's logistics department maintains strong relationships with the best transportation companies in the country, which translates to reliable service for our customers.
